- After Sales Technical Support and Services.
- Comprehensive and Preventive Maintenance.

Our Products

MULTISTACK CHILLERS

MULTISTACK

MULTISTACK CHILLERS

Why MULTISTACK Chillers?

- **Modular Design**

Modules are connected together
To form and operate as a single machine
When the needs arises, modules can be added or redeployed, giving client total control over their cooling requirements.

- **Compact Design**

Modules are engineered to be compact sizes. This means easy access via standard lifts and doorways can be achieved, thus reducing installation and construction costs.

- **Flexible**

Its vast number of model combinations delivers more potential applications than any chiller before it.

- **Cost Effective**

The small footprint of the chillers saves on floor space and thus saves on rental costs. Varying load requirements are matched by the onboard computer, enhancing efficiencies and reducing operating costs.

- **Dependable**

Each module function as a standby, giving client peace of mind that required capacity would always be available.

Our Products

GUNNEBO ENTRANCE CONTROL

Why Gunnebo Entrance Control Solution?

- **Proven Solutions**

Award winning products that stand the test of time. Standard or Customizable to blend into existing background.

- **Intelligently Secured**

Light and Pleasant to use, rejects unauthorized entry, yet intelligently disengage during emergency. Fully integrate into building BMS system.

- **Elegance**

Human Traffic Control with *Elegance*. The first thing to greet visitor is the entrance. Make your first impression last!
